

Commercial/Industrial California Friendly® Landscape Incentive Program

Description

LADWP launched the Landscape Incentive Program in 2009, which involves replacing turf grass with California Friendly® plants, mulch, and permeable pathways. Since turf grass is very expensive to maintain, requiring heavy water use and lots of attention, the California Friendly® Landscape Incentive Program is a great way to save money and, more importantly, save water for both residential and commercial customers.

Benefits

- Save money
- Conserve water
- Improve public image

Qualifications

Rebates are available for commercial properties that are pre-approved by LADWP.

Details

If approved, rebate paid is \$1.00 for every square foot of turf removed and replaced with drought tolerant or California Friendly® plants, mulch, and permeable pathways.

How to Apply

1. Customer submits the application and documentation that details the project.
2. Pre-conversion site visit is scheduled.
3. Rebate pre-approval letter and estimated rebate amount is sent to customer.
4. LADWP performs post-inspection.
5. Customers submit receipts, pictures and any documentation pertaining to the completion of the project.
6. LADWP processes the rebate.
